

BRANDAN BURFICT

Executive Vice Chair, Growth & Development

Sr. Manager, Environmental Generation and Gas Operations (LG&E and KU)

Brandan Burfict is the Senior Manager of Environmental Generation & Gas Operations at LG&E-KU. In this role, Brandan oversees and manages the environmental generation and gas operations, ensuring compliance with environmental regulations and optimizing operational efficiency.

Brandan is a key leader in the Combustion Turbine Operations Technical Forum (CTOTF) as Executive Vice Chair of the Growth & Development teams. His primary focus is on supporting and managing his roundtable teams. His leadership experiences with CTOTF include coordinating technical content, speaker logistics, and agenda development for CTOTF conferences. He has experience preparing and submitting roundtable agendas, abstracts, and speaker bios for inclusion in CTOTF's program booklets and online platforms.

Brandan is known for his responsiveness and attention to detail in conference planning communications. He often collaborates with other industry professionals, such as Courtney Adcock, Kimberly Williams, and Kyle McCormack.
